FISHIN' PARTIES—Numerous parties of Elbians are endeavoring to catch the hot weather by fishing themselves to the Gulf. But I lived on the Gulf and ocean for a good many years and I can tell you that it is about the last place I want to go in the hot weather.

(Continued From Page One)

LIBERTY REVIVAL.—A large congregation attended the opening service of the revival meeting at Liberty Methodist Church Sunday night. Rev. O. H. Vanlandingham of Selma is doing the preaching, and reports says that much interest is being shown. Rev. Vanlandingham is one of the strongest preachers in the Alabama Conference and his spirit-filled messages are uplifting to a marked degree. Mr. and Mrs. S. E. Hamilton are conducting the song services in a manner that adds greatly to the effectiveness of the services. It is announced that the meeting will close with Friday night's service.

PROFITABLE VACATION.—W. F. Harris, traveling salesman for Dorsey Brothers, is utilizing his vacation by tearing down the old outbuilding on the rear of his lot, in West Elba, and is erecting a garage in its stead. The new garage is in fact a complete improvement of the prettiest and most complete in this section.

LAYMAN'S SERVICE.—A layman's service was held Sunday morning at the Elba Methodist Church at the 11 o'clock hour. Day Leader A. C. Dunaway in charge of the program and to assure its success, he secured Prof. E. R. Norton, Covington County, a highly efficient superintendent of education, to occupy the pulpit. Professor Norton spoke on the subject nearest his heart, "Train up a child in the way he should go, and when he is old, he will not depart from it." He delivered a highly interesting and instructive sermon. Professor Norton has been prominently identified with layman activities in the Alabama Conference for a number of years and can always be counted on to make an able talk whenever called on. Coffee and Covington Counties are indeed fortunate in having such high type Christian gentlemen at the head of their public school systems as Superintendent Dunaway and Superintendent Norton. They don't "spit on bushes" or other. Fishing is said to be unusually good on the Bon Secour River.

NEW PUMP.—New Chambers Denver pump has been installed at the city pumping plant in West Elba. The old pump had become badly worn and repairs were hard to obtain, and it was consuming an unreasonable amount of electric current. The new pump is smaller, but runs much faster and is guaranteed to pump at least 50 per cent more water per hour than the old one. The motor being smaller and the fact that it will not be necessary to be in operation as much of the time, it is expected that the new outfit will be the means of showing a fine saving in the cost of operation of the city's water system.

Owing to the fact that the large amount of water supplied an abundance of pure water without the necessity of pumping it from the ground, makes Elba's water system one of the best and cheapest to operate in the whole country.

DAMON AND PYTHIAS.—Friends report that a remarkable example of friendship exists between Frank Price and John Stevens. In fact, they are inseparable. It is said they recently made a shopping trip to Troy and "The Great" Ben Price and Tom Jacobs went along to keep a watchful protective eye on them. Mr. Stevens says he intends to go to Victoria to do a little "shopping" in a few days.

ENJOYABLE VISIT.—Dr. W. R. Crook and family, J. D. English and family, James J. English and family, and several guests in the hotel last Friday from an enjoyable sojourn down on Bon Secour River, near Foley. Dr. Crook profited by last year's experience, when he was in the Gulf so badly sunburned that they were incapacitated for several days. Dr. Crook was under another doctor's orders this time and did practically nothing but lie around and rest. The others in the party spent the week fishing, bathing, etc. It is said that John English, Edwin Cooper and Dunaway and Superintendent Norton. They don't "spit on bushes" or other. Fishing is said to be unusually good on the Bon Secour River.

CHIROPRACTIC.—Chiropractic has been a subject of much interest to the many friends who were so kind and thoughtful of us during our recent bereavement. The death of our loved one, Stephen Emmett Rowe, we shall ever be grateful for your many expressions of sympathy.

MRS. S. E. ROWE AND CHILDREN.—THE ROWE FAMILY.

Mrs. Wayne Young and children have returned from a pleasant visit to relatives in Montgomery.

Mrs. J. H. Potter of Birmingham has come to Elba to join her husband in making their home here. They are residing at the Tucker home.

Oscar Aronson, student of the University of Georgia, is spending his summer vacation with his parents, Mr. and Mrs. S. Aronson.

ALABAMA CAUSES 34 DEATHS IN ALABAMA IN ONE YEAR

MONTGOMERY, July 28.—Malaria was responsible for the deaths of 343 persons in Alabama last year, according to figures prepared by the Bureau of Vital Statistics of the State Department of Health. This total represented an increase of 16 over the 1626 total of 327 deaths.

It is estimated that there are 200 cases of malaria for every death from this disease, and, on that basis, there were between 65,000 and 66,000 cases of this disease in the State last year.

Officials of the State Department of Health have expressed the opinion that malaria probably strikes more residents of Alabama than any other disease known to medical science. The Department is urging local communities to carry out drainage projects to destroy the breeding places of the malaria-carrying mosquito and to employ other methods to reduce the danger inherent in this disease.
